## **Planning & Zoning Report #022-LTAB-015**

**Page 2**

The present use of the property is a gas station and a convenience store that is approximately 3,000 square feet which was built in 2006. The subject property was part of an annexation agreement that was executed in 2001 and involved approximately 38 acres of land for development of single family homes and commercial uses. Most of the subdivision has been built out and is known as Emerson Estates Subdivision. The use of a gas station, car wash and convenience store with liquor sales was approved under a Special Use Permit in 2001. The ownership of the gas/station and convenience store is going through another change in ownership, thus the application for a new liquor license.

Exhibit D is the map identifying businesses with a liquor license. The yellow dots identify the sale of beer and wine by the drink. The green dot is for a full liquor license for the sale of liquor by the drink. The red dot is for packaged liquor sales. The large star is the subject property.

Exhibit E is the existing layout of the property. The property has multiple businesses under one building. There is the convenience store, Alize's Grill Restaurant, Boost Mobile and Subway. The convenience store occupies the middle space in this building. The gas pumps and canopy face North Springfield and the building is set back behind the canopy. The subject property was granted a variation in parking to allow a reduction by two parking spaces and parking has not been an issue. There are a total of 48 parking spaces.

Exhibit F is the existing interior floor plan. This plan indicates the locations within the convenience store where general merchandise and grocery items are located, including the beer coolers and the liquor storage area. The areas for beer are identified within the cooler in the back of the store. The liquor display area would be behind the counter at the checkout area. The tobacco sales are not identified.

Exhibit G is the building elevation for both the gas station and car wash. The building was built with brick throughout and windows. The rear side facing the residential east is also brick.

Exhibit H is the Applicant's business plan. The Applicant indicates that he has been operating the business the last six (6) years with his brother and now wants to establish the business as a sole owner and operator. The brother passed away last year and the Applicant now needs to establish the corporation in his name only. The business will continue to be operated as existing. Exhibit I is the security plan. The employees have been trained. The parking lot is well lit and there are 32 cameras onsite.

Exhibit J is the service calls for the last two (2) years. The report is from May 3, 2020 to May 3, 2022 with a total of 107 service calls. The reported offenses range from Investigation to Alarm.

Upon inspection and posting of the property staff found some temporary signs on the light posts. The window surface area was exceeding 20% of the window area with signage. Additionally, the main entrance door had bars. There are a couple of trees that may need to be replaced as they appear to be

dying. These items must be corrected prior to the issuance of the licenses. Staff feels that the business will continue to operate as existing. This request is consistent to other gas station and convenience stores. Therefore, staff supports this request.

**RECOMMENDATION:** Staff recommends APPROVAL of the sale of package liquor in conjunction with a gas station and convenience store and APPROVAL of the sale of tobacco products in conjunction with a gas station and convenience store in a C-3, General Commercial Zoning District, subject to the following conditions:

1. Meet all Applicable Building and Fire Codes.
2. Compliance with all City of Rockford Code of Ordinances including Liquor and Tobacco Codes
3. The sale of liquor shall be limited to the submitted interior floor plan Exhibit E.
4. Submittal of a revised interior floor plan that indicates the location for tobacco sales.
5. Window display signage is limited 20% of window area.
6. The sale of water pipes and “huka” or “hookah” pipes are prohibited.
7. The sale of rose tubes, airplane-sized bottles (50 ml (1.7 ounces) or less) and any other products that can be deemed to be easily manufactured into drug paraphernalia is prohibited.
8. The windows shall not be covered with bars or other devices that block the windows.
9. There shall be no single serving sales of liquor, beer or wine in volumes of 16 ounces or less.
10. Any pending general ordinance case(s) must be resolved prior to issuance of the license.
